updates as this information is subject to change.**

CONNECT & ENGAGE

The Power of Connection: Fueling Growth and Success

At the heart of every thriving organization are the connections that bind us together. These connections — between individuals, communities, and ideas — serve as the essential building blocks for growth and success. Through meaningful relationships, we can share resources, knowledge, and enthusiasm to collectively make a positive impact.

The **Princeton Community Works** conference is designed to facilitate these connections. It's more than just an event; it's an opportunity to engage with others, learn from diverse perspectives, and exchange actionable insights. Throughout the conference, you'll find that this spirit of collaboration is woven into every session, discussion, and interaction.

The ultimate goal of **Princeton Community Works** is simple: Each participant leaves with one to three practical takeaways — tools and techniques that can be applied immediately to improve your work environment. Whether you're involved with staff, boards, volunteers, or community building, the ideas shared at the conference are designed to spark transformation and drive real change.

Together, we have the power to make good things happen, both within our organizations and in the broader communities we serve.

Our Mission

The mission of **Princeton Community Works** is to enable non-profit boards, staff and volunteers to work together more effectively through networking, developing skills, and raising community awareness.

Our Roots: A Legacy of Community and Connection

More than two decades ago, **Marge Smith**—along with the support of our talented workshop presenters and the dedication of our Planning Committee of volunteers—founded **Princeton Community Works**. The conference was established with a clear mission: to foster collaboration, share knowledge, and build stronger communities.

For many years, **Princeton Community Works** was graciously hosted at Princeton University's Frist Campus Center, where it became a cornerstone of community engagement and professional development. However, in response to the challenges of the COVID-19 pandemic, the conference pivoted to a virtual format, allowing us to continue serving our community remotely for three years.

Now, after navigating the changes brought on by the pandemic, we are thrilled to announce that **Princeton Community Works** will be held **live and in-person** this year at the **Mercer County Community College Conference Center**. We look forward to reconnecting face-to-face and continuing the tradition of collaboration, learning, and community-building that has been at the heart of our mission for over 20 years.
